SUMMARY

Ambitious AI/ML engineer with expertise in machine learning, deep learning, computer vision, and natural language processing. Experienced in developing scalable AI models using Python, TensorFlow, and modern machine learning frameworks. Strong background in data-driven problem solving, research, and model optimization. Passionate about designing intelligent systems and applying cutting-edge AI techniques to solve complex real-world challenges.

TECHNICAL SKILLS

Programming Languages: Python, C++, SQL, MATLAB, Java

Deep Learning Frameworks: TensorFlow, PyTorch, Keras, Caffe,

Libraries & Tools: NumPy, Pandas, Scikit-learn, OpenCV, NLTK, Git, Docker

PROJECTS

Deep Fake Detection System

2024

Computer Vision & Deep Learning

Python, TensorFlow, OpenCV

- Developed a deep learning model to detect manipulated images and videos created using deepfake technology
- Implemented convolutional neural networks (CNN) for feature extraction and classification

Cancer Detection using Machine Learning

2024

Healthcare AI Project

Python, Scikit-learn, Matplotlib

- Built a machine learning model for early cancer detection using medical datasets
- Implemented classification algorithms with feature scaling, preprocessing, and model evaluation

EXPERIENCE

AI & Cloud Learning Programs

2024 – Present

Coursera, Google Cloud Skills Boost, AWS

Online

- Completed Generative AI coursework covering modern AI tools and applications
- Completed multiple hands-on labs on Google Cloud Skills Boost focused on cloud and AI services
- Currently pursuing AWS and Machine Learning certifications to strengthen cloud-based ML deployment skills

Cyber Security Hackathon Participant

2024

Hackathon Competition

India

- Participated in a cybersecurity-focused hackathon involving security challenges and real-world problem solving
- Collaborated with team members to analyze vulnerabilities and design potential solutions
- Strengthened practical knowledge of cybersecurity fundamentals and teamwork under time constraints

EDUCATION

VIT Bhopal University

Bhopal, India

B.Tech in Computer Science Engineering (AI & ML Specialization)

2023 – Present

CGPA: 8.53 / 10

Delhi Public School & Vibgyor High School

India

Senior Secondary (Class XII): 85% — Secondary (Class X): 92%

2020 – 2022

CERTIFICATIONS

- Generative AI Specialization – Coursera
- Google Cloud Skills Boost – Cloud & AI Learning Labs
